Unless stated otherwise or unless the context requires otherwise, the financial data used in this Tranche I Prospectus as at and for the financial year ended March 31, 2023, March 31, 2022 and March 31, 2021 is derived from our Reformatted Financial Information.

Unless stated otherwise, macroeconomic and industry data used throughout this Tranche I Prospectus has been obtained from publications prepared by providers of industry information, government sources and multilateral institutions. Such publications generally state that the information contained therein has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although the Issuer believes that industry data used in this Tranche I Prospectus is reliable, it has not been independently verified. Further, the extent to which the market and industry data presented in this Tranche I Prospectus is meaningful depends on the readers’ familiarity with and understanding of methodologies used in compiling such data.

Non-GAAP Financial Measures

This Tranche I Prospectus includes certain non-GAAP measures, including, inter alia, EBITDA, Net Worth, AUM, Total Debts to total assets, Debt Service Coverage ratios, interest service coverage ratios, Gross NPA (%), Net NPA (%), Tier I CAR (%) and Tier II CAR (%) (together, “Non-GAAP Measures”), which are a supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. In addition, these Non-GAAP measures are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies in financial services industry may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although such Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company’s management believes that they are useful to an investor in evaluating us as they are widely used measures to evaluate a company’s operating performance.

Currency and Unit of Presentation

In this Tranche I Prospectus, all references to ‘Rupees’/‘₹’/‘INR’/ ‘Rs.’ are to Indian Rupees, the official currency of the Republic of India.

Except where stated otherwise in this Tranche I Prospectus, all figures have been expressed in ‘crore’. All references to ‘million/million/mn’. Refer to one million, which is equivalent to ‘ten lakh’ or ‘ten lacs’, the word ‘lakh/lacs/lac’ means ‘one hundred thousand’ and ‘crore’ means ‘ten million’ and ‘billion/bn./billions’ means ‘one hundred crore’.

Certain figures contained in this Tranche I Prospectus and Shelf Prospectus, including financial information, have been subject to rounding adjustments. Unless set out otherwise, all figures in decimals, including percentage figures, have been rounded off to one decimal point. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. Further, any figures sourced from third party industry sources may be rounded off to other than one decimal point to conform to their respective sources.

Industry and Market Data

Any industry and market data used in this Tranche I Prospectus and Shelf Prospectus consists of estimates based on data reports compiled by Government bodies, professional organizations and analysts, data from other external sources available in the public domain and knowledge of the markets in which we compete. These publications generally state that the information contained therein has been obtained from publicly available documents from various sources believed to be reliable. The data used in these sources may have been reclassified by us for purposes of presentation. Data from these sources may also not be comparable. The extent to which the industry and market data presented in this Tranche I Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies and assumptions may vary widely among different market and industry sources.

Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors. Accordingly, investment decisions should not be based solely on such information.

ANNEXURE

STATEMENT OF SUMMARY OF TAX BENEFITS

- The information provided below sets out the possible direct tax benefits available to the debenture holders of the company in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the subscription, ownership and disposal of non-convertible debentures ("debentures"), under the current tax laws presently in force in India. Several of these benefits are dependent on the debenture holders fulfilling the conditions prescribed under the relevant tax laws. Hence, the ability of the debenture holders to derive the tax benefits is dependent upon fulfilling such conditions, which, based on commercial imperatives a debenture holder faces, may or may not choose to fulfil. We do not express any opinion or provide any assurance as to whether the Company or its debenture holders will continue to obtain these benefits in future. The following overview is not exhaustive or comprehensive and is not intended to be a substitute for professional advice.
- Debenture holders are advised to consult their own tax consultant with respect to the tax implications of an investment in the debentures particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.
- Our views expressed in this statement are based on the facts and assumptions as indicated in the statement. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We do not assume responsibility to update the views consequent to such changes. Reliance on this statement is on the express understanding that we do not assume responsibility towards the investors who may or may not invest in the proposed issue relying on this statement.
- The statement is neither a reproduction nor an extract of the relevant provisions of the Income Tax Act, 1961 and is an attempt to correlate the relevant provisions in a simplified manner.
- This statement has been prepared solely in connection with the Issue under the Regulations as amended.

STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE DEBENTURE HOLDER(S)

This Annexure is based on the provisions of the Income-tax Act, 1961 ('IT Act') in force as on the current date, after considering the amendments made by the Finance Act, 2023 ('FA, 2023').

Act

This Annexure intends to provide general information on the applicable provisions of the IT Act. However, in view of the nature of the implications, the investors are best advised to consult their respective tax advisors/consultants for appropriate counsel with respect to the specific tax and other implications arising out of their participation in the Portfolio as indicated herein.

Taxability under the IT Act

Section 50AA of the IT Act

The Finance Act, 2023 has inserted section 50AA to the IT Act to provide for a special provision for computation of capital gains in case of Market Linked Debenture (MLD). For the purposes of the said section, MLD have been defined in the Explanation thereto to mean a security by whatever name called, which has an underlying principal component in the form of a debt security and where the returns are linked to the market returns on other underlying securities or indices, and includes any security classified or regulated as a MLD by the Securities and Exchange Board of India.

Based on the definition, MLD has the following essential features:

- It is a security in the nature of debt;
- It has an underlying principal component;
- Returns with respect to such security are linked to market returns on other underlying securities or indices;
- And, by way of extension, it is also provided that any security classified or regulated by SEBI as an MLD, shall for the purposes of section 50AA of the IT Act, be deemed to be an MLD

The Non-Convertible Debentures (NCDs) issued/ proposed to be issued by the issuer creates a borrower-lender relationship between the issuer and subscriber and to that extent, such NCDs constitute a security in the nature of debt. Further, such NCDs, by their very nature, have a principal component (which is the price at which the subscriber subscribes to such NCDs).

However, the returns with respect to such NCDs (excess of redemption value over the principal component) is a fixed return and is not linked to any market return or underlying security or indices.

Given the same, the NCDs issued by the issuer do not satisfy the first limb of the definition of MLD as provided in the Explanation to section 50AA of the IT Act and thus, such NCDs should not constitute an MLD for the purposes of section 50AA of the IT Act.

The second limb of the definition of MLD which deems any security classified or regulated by SEBI as an MLD, to be an MLD for the purposes of section 50AA of the IT Act, is an independent limb and need to be construed as such. We have been given to understand that, at present, the NCD issued/ proposed to be issued by the issuer is neither classified nor regulated by the SEBI as an MLD and accordingly, the NCDs issued by the issuer should not constitute an MLD for the purposes of section 50AA of the IT Act. However, the said fact-pattern would have to be re-visited in light of any amendment in the law as may be notified by SEBI in future.

A. Common provisions applicable to both Resident and Non-Resident debenture holders:

1. Determination of head of income for the purpose of assessability:

The returns received by the investors from the Non-Convertible Debentures ('NCD') in the form of 'interest' and gains on transfer of the NCD, may be characterized under the following broad heads of income for the purposes of taxation under the IT Act:

- Profits and gains of business or profession ('PGBP');
- Capital gains ('CG'); and
- Income from other sources ('IFOS').

For determining the appropriate head of income (as mentioned above) *vis-à-vis* the income or loss earned on/ from the NCD, it will be pertinent to analyse whether the NCD are held as 'Investments' i.e. capital asset or as 'Stock-in-trade'.

If the NCD are held as 'Stock-in-trade', interest income as well as gain or loss on its transfer will be assessed to tax under the head PGBP, whereas, if the NCD are held as 'Investments', then the interest income will be assessed to tax under the head IFOS and any gain/ loss on its transfer will be assessed to tax under the head CG (explained in ensuing paragraphs), based on facts of each case.

However, as per section 2(14) of the IT Act, 'capital asset' includes, *inter alia*, securities held by a Foreign Institutional Investor ('FII') now known as Foreign Portfolio Investor ('FPI') which has invested in such securities in accordance with the regulations made under Securities and Exchange Board of India Act, 1992. Accordingly, such securities, held by an FII, will be characterised as 'capital asset' and classification as 'Stock-in-trade' shall not apply.

The investors may obtain specific advice from their tax advisors regarding the above classification and tax treatment.

2. Taxation of Interest and Gain/ loss on transfer of debentures:

- Taxation of Interest

Income by way of interest received on NCD held as 'Investments' (i.e. capital asset) will be charged to tax under the head IFOS at the rates applicable to the investor after deduction of expenses, if any, allowable under section 57 of the IT Act. These are essentially expenses (not being in the nature of capital expenditure) laid out or expended wholly and exclusively for the purpose of earning the interest income. In case of NCD held as 'Stock-in-trade', interest received thereon will be charged to tax under the head PGBP. Further, any expenditure specifically laid out or expended wholly and exclusively for the purpose of earning such interest income shall be allowed as deduction while computing income under the head PGBP.

The investors may obtain specific advice from their tax advisors regarding the tax treatment of their Interest income.

- Taxation of gain or loss on transfer

(a) Taxable under the head PGBP

As discussed above, depending on the particular facts of each case, the NCD may, in certain cases, be regarded to be in the nature of 'Stock-in-trade' and, accordingly, the gains from the transfer of such NCD should be considered to be in the nature of business income and hence chargeable to tax under the head PGBP.

In such a scenario, the gains from the business of investing in the NCD may be chargeable to tax on a 'net' basis (i.e. net of allowable deductions for expenses/allowances under Chapter IV – Part D of the IT Act).

Based on section 145 of the IT Act, the timing of charging any income to tax would depend on the method of accounting followed by the taxpayer consistently (i.e. cash or mercantile).

Investors should obtain specific advice from their tax advisors regarding the manner of computing business income, the deductions available therefrom and the tax to be paid thereon.

(b) Taxable under the head Capital Gains

As discussed above, based on the particular facts of each case, the NCD may, in certain cases, be regarded to be held as 'Investments' in which case the gains or loss from the transfer of such NCD should be chargeable to tax under the head CG.

In such a scenario, the gains / loss from the transfer of such NCD may be chargeable to tax on a 'net' basis (i.e. net of acquisition cost of NCD, expenditure incurred in relation to transfer of NCD).

Investors should, however, seek specific advice from their tax advisors/ consultants in respect of characterization of capital gains, the manner of computation and the tax to be paid thereon.

3. Period of holding and Capital gain – long term & short term:

As per section 2(29AA) read with section 2(42A) of the IT Act, listed NCD is treated as a long-term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer and consequently, the gain/ loss on transfer of such NCD should be treated as long term capital gain/ loss.

Accordingly, if listed NCD is held for upto 12 months immediately preceding the date of its transfer, the same should be treated as a short-term capital asset and the gain/ loss on transfer of such NCD should be treated as short-term capital gain/ loss.

Without prejudice to the fact that the NCDs to be issued by the issuer are not MLD (as has been concluded at the outset), where, for whatsoever reasons, the NCDs are treated as MLDs, then in such cases, as per the amendment by the FA, 2023, the capital gains arising on transfer or redemption or maturity of such NCDs shall be deemed to be capital gains arising from transfer of a short-term capital asset. Further, in computing the capital gains, no deduction shall be allowed on account of Securities Transaction Tax (STT) paid, if any.

4. Computation of capital gains and tax thereon

Capital gains is computed after reducing from the consideration received for the transfer of the capital asset 'full value of consideration (FVC), the cost of acquisition (CoA) of such asset and the expenses incurred wholly and exclusively in connection with the transfer. The capital gains so computed will be chargeable to tax at the rates as detailed in the ensuing paragraphs.

5. Set off of capital losses

- NCDs held in the dematerialised form, the person for the time being appearing in the register of beneficial owners maintained by the Depositories; and
- the NCDs held in physical form pursuant to rematerialization, the person for the time being appearing in the register of NCD Holders shall be treated for all purposes by our Company, the Debenture Trustee, the Depositories and all other persons dealing with such person, as the holder thereof and its absolute owner for all purposes whether or not it is overdue and regardless of any notice of ownership, trust or any interest in it or any writing on, theft or loss of the consolidated NCD certificates issued in respect of the NCDs and no person will be liable for so treating the NCD holder.

Procedure for rematerialisation of NCDs

NCD Holders who wish to hold the NCDs in physical form may do so by submitting a request to their DP at any time after Allotment in accordance with the applicable procedure stipulated by the DP, in accordance with the Depositories Act and/or rules as notified by the Depositories from time to time. No proposal for rematerialisation of NCDs would be considered if the aforementioned documents and details are not submitted along with the request for such rematerialisation.

Pursuant to the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, NCDs held in physical form, pursuant to any rematerialisation, as above, cannot be transferred. However, any trading of the NCDs issued pursuant to the Issue shall be compulsorily in dematerialized form only.

Register of NCD Holders

In the absence of transfer being registered, interest and/or Redemption Amount, as the case may be, will be paid to the person, whose name appears first in the Register of NCD Holders maintained by the Depositories and/or our Company and/or the

Registrar, as the case may be as on the Record Date. In such cases, claims, if any, by the purchasers of the NCDs will need to be settled with the seller of the NCDs and not with our Company or the Registrar. Provided, a third person may call on our Company to register his name as successor of the deceased NCD Holder after obtaining evidence such as probate of a will for the purpose of proving his title to the debentures. In the event of demise of the sole or first holder of the Debentures, our Company will recognise the executors or administrator of the deceased NCD Holders, or the holder of the succession certificate or other legal representative as having title to the Debentures only if such executor or administrator obtains and produces probate or letter of administration or is the holder of the succession certificate or other legal representation, as the case may be, from an appropriate court in India. 3. Such holding by a non-resident Indian will be on a non-repatriation basis.

Hence the transferees, if any, should ensure lodgment of the transfer documents with us at least seven days prior to the Record Date. The Registrar to the Issue will aggregate the Applications based on the Applications received through an electronic book from the Stock Exchange and determine the valid Applications for the purpose of drawing the Basis of Allotment. Grouping of the Applications received will be then done in the following manner:

Grouping of Applications and allocation ratio

For the purposes of the basis of allotment:

- A. Applications received from Category I Applicants: Applications received from Applicants belonging to Category I shall be grouped together, (“**Institutional Portion**”);
- B. Applications received from Category II Applicants: Applications received from Applicants belonging to Category II, shall be grouped together, (“**Non-Institutional Portion**”).
- C. Applications received from Category III Applicants: Applications received from Applicants belonging to Category III shall be grouped together, (“**High Net Worth Individual Investors Portion**”).
- D. Applications received from Category IV Applicants: Applications received from Applicants belonging to Category IV shall be grouped together, (“**Retail Individual Investors Portion**”).

For removal of doubt, the terms “**Institutional Portion**”, “**Non-Institutional Portion**”, “**High Net Worth Individual Investors Portion**” and “**Retail Individual Investors Portion**” are individually referred to as “**Portion**” and collectively referred to as “**Portions**”.

For the purposes of determining the number of NCDs available for allocation to each of the abovementioned Portions, our Company shall have the discretion of determining the number of Secured NCDs to be allotted over and above the Base Issue Size, in case our Company opts to retain any oversubscription in the Issue upto an amount specified under this Prospectus.

Allocation Ratio

Institutional Portion	Non-Institutional Portion	High Net Worth Individual Investors Portion	Retail Individual Investors Portion
10%	10%	40%	40%

(a) Allotments in the first instance:

- (i) Applicants belonging to the Institutional Portion, in the first instance, will be allocated NCDs upto 10% of Tranche I Issue Size on first come first serve basis which would be determined on the date of upload of their Applications in to the electronic platform of the Stock Exchange;
- (ii) Applicants belonging to the Non-Institutional Portion, in the first instance, will be allocated NCDs upto 10% of the Tranche I Issue Size on first come first serve basis which would be determined on the date of upload of their Applications in to the electronic platform of the Stock Exchange;

of their Applications in to the electronic platform of the Stock Exchange.

As per the SEBI Master Circular, in consultation with the Designated Stock Exchange, the allotment in this Tranche I Issue is required to be made on the basis of date of upload of each application into the electronic book of the Stock Exchange , in each Portion subject to the Allocation Ratio indicated herein above.. However, on the date of oversubscription and thereafter, the allotments will be made to the applicants on proportionate basis.

(b) Under Subscription

If there is any under subscription in any Category, priority in Allotments will be given to the Retail Individual Investors Portion, High Net Worth Individual Investors Portion, and balance, if any, shall be first made to applicants of the Non Institutional Portion, followed by the Institutional Portion on a first come first serve basis. If there is under subscription in the Tranche I Issue Size due to undersubscription in each Portion, all valid Applications received till the end of last day of the Tranche I Issue Closure day shall be grouped together in each Portion and full and firm Allotments will be made to all valid Applications in each Portion.

For each Category, all Applications uploaded on the same day onto the electronic platform of the Stock Exchange would be treated at par with each other. Allotment would be on proportionate basis, where NCDs uploaded into the platform of the Stock Exchange exceeds NCDs to be Allotted for each portion respectively from the date of oversubscription and thereafter.

Minimum Allotments of 10 NCD and in multiples of 1 NCD thereafter would be made in case of each valid Application to all Applicants.

(c) Allotments in case of oversubscription

In case of an oversubscription, allotments to the maximum extent, as possible, will be made on a first-come first-serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription and proportionate allotment of NCDs to the applicants on the date of oversubscription and thereafter (based on the date of upload of each Application on the electronic platform of the Stock Exchange, in each Portion).

For the purpose of clarity, in case of oversubscription please see the below indicative scenarios:

- (i) In case of an oversubscription in all Portions resulting in an oversubscription in the Tranche I Issue Size, Allotments to the maximum permissible limit, as possible, will be made on a first-come first serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first serve basis up to the date falling 1 (one) day prior to the date of oversubscription to respective Portion and proportionate allotment of NCDs to the Applicants from the date of oversubscription and thereafter in respective Portion (based on the date of upload of each Application on the electronic platform of the Stock Exchange in each Portion).
- (ii) In case there is oversubscription in Tranche I Issue Size, however there is under subscription in one or more Portion(s), Allotments will be made in the following order:
 - a. All valid Applications in the undersubscribed Portion(s) uploaded on the electronic platform of the Stock Exchange till the end of the last day of the Issue Period, shall receive full and firm allotment.
 - b. In case of Portion(s) that are oversubscribed, allotment shall be made to valid Applications received on a first come first serve basis, based on the date of upload of each Application in to the electronic platform of the Stock Exchange. Priority for allocation of the remaining undersubscribed Portion(s) shall be given to day wise Applications received in the Retail Individual Investors Portion followed by High Net Worth Individual Investors Portion, next Non-Institutional Portion and lastly Institutional Portion each according to the day of upload of Applications to the Electronic Book with Stock Exchange during the Issue period.
 - c. For the sake of clarity, once full and firm allotment has been made to all the valid Applications in the undersubscribed portion, the remaining balance in the undersubscribed Portion will be Allocated to the oversubscribed Portion(s) and proportionate allotments shall be made to all valid Applications in the oversubscribed Portion(s) uploaded on the date of oversubscription and thereafter on the remaining days of the Issue Period.

(d) Proportionate Allotments:

For each Portion, from the date of oversubscription and thereafter:

- (i) Allotments to the Applicants shall be made in proportion to their respective Application size, rounded off to the nearest integer.
- (ii) If the process of rounding off to the nearest integer results in the actual allocation of NCDs being higher than the Tranche I Issue size, not all Applicants will be allotted the number of NCDs arrived at after such rounding off. Rather, each Applicant whose Allotment size, prior to rounding off, had the highest decimal point would be given preference.
- (iii) In the event, there are more than one Applicant whose entitlement remain equal after the manner of distribution referred to above, our Company will ensure that the basis of allotment is finalised by draw of lots in a fair and equitable manner.

Applicant applying for more than one Series of NCDs

If an Applicant has applied for more than one Series of NCDs and in case such Applicant is entitled to allocation of only a part of the aggregate number of NCDs applied for, the Series-wise allocation of NCDs to such Applicants shall be in proportion to the number of NCDs with respect to each Series, applied for by such Applicant, subject to rounding off to the nearest integer, as appropriate in consultation with the Lead Managers and the Designated Stock Exchange. Further, in the aforesaid scenario, wherein the Applicant has applied for all three Series and in case such Applicant cannot be allotted all three Series, then the Applicant would be allotted NCDs, at the discretion of the Company, the Registrar and the Lead Managers wherein the NCDs with the least tenor i.e. Allotment of NCDs with tenor of 3 years followed by Allotment of NCDs with tenor of 10 years.

Rationale and key rating drivers

The reaffirmation and assignment of the ratings to various instruments of Power Finance Corporation Limited (PFC) continues to factor in the majority ownership by the Government of India (GoI). The ratings also draw comfort from the strategic importance of the company to the GoI for the development of power infrastructure in India, along with the quasi-sovereign status of PFC that allows it to have a diversified resource profile at competitive rate of interest. The ratings also take into consideration improving profitability and capitalisation profiles, improving asset quality indicators, albeit exposure remains towards weak state power utilities (SPU) and private sector companies.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors- Factors that could, individually or collectively, lead to positive rating action/upgrade:

Not applicable

Negative factors - Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Any material changes in the shareholding pattern and/or reduced expectation of support from the GoI.
- Further significant deterioration in the asset quality profile.
- Weakness in the capitalisation profile with capital adequacy ratio (CAR) going below regulatory minimum.

Analytical approach: Standalone

CARE Ratings Limited (CARE Ratings) has adopted the standalone approach factoring in the timely support from the GoI, given PFC is majorly owned by the GoI and plays a strategic role in the power sector financing and development in India.

Outlook: Stable

CARE Ratings expects that PFC will continue to be strategically important to the government and will continue to play an important role in the development of the power sector.

Key strengths

Majority ownership by GoI and status of Nodal agency

As a public financial institution and with 55.99% of the stake held by GoI as on December 31, 2022, PFC enjoys patronage from and support of the GoI because of the pivotal role PFC plays in financing power projects for both, the state and the private sector, thereby being instrumental in strengthening the power infrastructure of the country. PFC continues to be a strategically important entity for the government, as it is the nodal agency for various GoI schemes, such as the Liquidity Infusion Scheme (LIS), which is a part of the Aatmanirbhar Bharat Abhiyan, Revamped Distribution Sector Scheme (RDSS), Ultra Mega Power Project (UMPP) scheme. Additionally, the Ministry of Power (MoP) has initiated a tariff-based competitive bidding process for the development and strengthening of the transmission system through private sector participation. PFC Consulting Limited (PFCCL), a wholly owned subsidiary of PFC, has been nominated as Bid Process Coordinator by the MoP, GoI for the development of independent transmission projects. Furthermore, on October 12, 2021, PFC was conferred with the Maharatna status. CARE Ratings notes the strategic importance of the company to the GoI for the development of power infrastructure in India, and expects it to continue in future.

PFC and REC Limited (REC) are advised by the MoP to extend their support to discoms for timely payment of their dues under the new Late Payment Surcharge and Related Matters) Rules, 2022 (LPS Rules 2022). As on December 31, 2022, PFC had sanctioned loans of Rs. 45,524 crore and disbursed Rs. 11,053 crore.

Diversified resource profile

As a quasi-sovereign financial institution, PFC is able to manage a well-diversified resource profile and can mobilise funds at cost effective rates from various sources such as external commercial borrowings (ECB), domestic financial institutions, long-term bonds, bank loans, commercial papers. Furthermore, PFC raises infrastructure bonds and tax-free bonds, subject to regulatory approvals. Since it is a non-deposit accepting non-banking finance company (NBFC), it does not accept public deposits. As on December 31, 2022, PFC has borrowings of ₹ 342,045 crore (+7% YTD), of which majority proportion is formed by domestic bonds with 57% of borrowings followed by term loan from banks/financial institutions (FIs) with 20% of borrowings and foreign currency borrowing with 18%. Subordinate bonds, 54 EC Bonds, and CC/OD and others together form 6% of borrowings as on December 31, 2022. The company did not raise funds through commercial papers in 9MFY23. Also, to manage foreign currency risks, 77% of exchange risk hedging has been done for foreign currency loans with residual maturity upto five years. Owing to its policy role and government ownership, PFC has been able to raise funds at competitive costs.

Adequate capitalisation

The capitalisation profile of PFC has been improving with CAR % at 24% as on December 31, 2022 from 23% as on March 31, 2022. The improvement in CAR levels is supported by healthy internal accruals.

Stable profitability metrics

PFC reported net profits of ₹10,022 crore in FY22 up by 18.69% y-o-y due to reduction in provisions by 36.44% y-o-y with improvement in the asset quality. The company reported rise in the net interest income by 8.33% y-o-y to ₹14,030 crore in FY22. The company's pre-provision operating profit (PPoP) grew by 5.44% y-o-y in FY22.

Higher decline in the cost of funds as compared to yields led an improvement in the net interest margin (NIM) to 3.57% in FY22 (vs. 3.44% in FY21). Due to its large size and wholesale nature, operating expenses to total assets ratio remained small at 0.37% in FY22. With improving asset quality, credit costs/ATA ratio also improved to 0.57% in FY22. Overall, the company reported moderate profitability with return on total assets (RoTA) of 2.55% in FY22.

In 9MFY23, PFC reported net profits of Rs. 8,113 crore. The NIM moderated to 3.55% in 9MFY23 due to the rising interest rate scenario. With the reduction in credit cost in 9MFY23, owing to resolution of stressed accounts, the RoTA improved to 2.65% in 9MFY23.

Improvement in asset quality though loan portfolio remains stable in FY22

As on March 31, 2022, PFC's standalone gross loan book stood at ₹373,135 crore, remaining on similar level as on March 31, 2021, due to subdued demand in the power sector after getting adversely impacted due to COVID-19. The loan book increased to Rs. 393,387 crore as on December 31, 2022, up by 5% YTD. The trend in composition of loan book remains broadly the same as in the previous years with the government sector contributing majority to the company's loan book with 84% of the loan book and private sector contributing remaining 16% of the loan book as on March 31, 2022 and December 31, 2022. Segment-wise break-up of the loan book shows loans towards generation companies have remained in majority over the years, though on a reducing basis, with 55% as on December 31, 2022, down from 57% as on March 31, 2022 and 61% as on March 31, 2021.

Loans towards distribution companies (discoms) follow with rising share to 37% as on December 31, 2022, from 34% as on March 31, 2022 and 30% as on March 31, 2021. The rise in loans towards discoms is due to the loans disbursed under RDSS. The loans to renewable companies have also risen in 9MFY23 by 8% YTD, in line with the company's strategy, though its proportion remained similar over the years with 10%.

PFC's asset quality, although weak, has been on a mending trend since FY21 and further improved in FY22 with gross nonperforming asset (GNPA)% and net non-performing asset (NNPA)% reducing to 5.61% and 1.76%, respectively, as on March 31, 2022 from 5.70% and 2.15%, respectively, as on March 31, 2021. Provisioning increased in FY21 with provision coverage ratio (PCR) rising further in FY22 with 69%. The NPA emanates solely from private sector with GNPA of ₹20,915 crore as on March 31, 2022, being entirely from the private sector.

The asset quality of PFC has improved as on December 31, 2022 with reduction in GNPA% to 4.21% owing to resolution of stressed accounts. The NNPA% further improved to 1.19% as on December 31, 2022.

Key weaknesses

High exposure to SPU and high customer concentration and sector risk

PFC was exempted from following single entity/group exposure norms and concentration limits that are applicable to NBFCs till March 31, 2022. Subsequently, PFC faces high concentration risk with advances to the top 10 borrowers (pertaining to the state sector) constituting 59% of the overall disbursement in FY22. Owing to its business model and strategic importance to GoI, the Reserve Bank of India (RBI) vide its letter dated August 24, 2022, allowed the existing exposure as on August 24, 2022, to run off till maturity without invoking any regulatory violation and confirm to RBI credit concentration norms with regard to new exposure. As on December 31, 2022, 46% of loans constituted from top 10 exposure.

Liquidity: Adequate

As of December 31, 2022, the structural liquidity position (excluding interest inflows) of PFC has negative cumulative mismatches for time buckets starting from over three months to over five years. If interest inflows are considered, the structural liquidity position has positive cumulative mismatches across all time buckets. To suffice the negative cumulative mismatch, if any, the company has available cash and cash equivalent of Rs. 3,460 crore, cash credit/ overdraft/ working capital availed of Rs. 1,802 crore out of sanctioned limits of Rs. 9,530 crore as on December 31, 2022. PFC's ability to effectively raise funds in a cost-effective manner and financial flexibility arising out of majority sovereign ownership provides comfort to the liquidity profile.

Environment, social, and governance (ESG) risks

Given that PFC is engaged in the lending business, it is exposed to the environmental risks indirectly through their portfolio of assets. If the entities on whom PFC has an exposure faces environmental or regulatory risk, it could translate into credit risks for PFC.

PFC is focusing on financing the renewable sector with 10% of its loan book towards it which translates to Rs. 39,634 crore as on December 31, 2022, comprising of solar, wind and hydro projects, etc. PFC established its Green Bond Framework in October, 2017 as approved by Climate Bonds Initiative (CBI), London, UK. The Green Bond framework for funding renewable projects (viz. Solar and Wind) has been updated in August, 21 to align with the latest set of guidelines. PFC had issued its first USD Green bond in December, 2017 and raised US \$400 million (Rs. 2,575 crore). Further, in September, 2021 PFC issued its first ever Euro Green Bonds amounting to EUR 300 million (Rs. 2,597 crore).

Detailed Rationale

CRISIL Ratings has assigned its 'CRISIL AAA/Stable' rating to the long term borrowing programme of Power Finance Corporation Limited (PFC) and its 'CRISIL A1+' rating to the short term borrowing programme of the company. CRISIL Ratings has also reaffirmed its ratings on the other debt instruments and bank facilities of PFC at 'CRISIL AAA/Stable/CRISIL A1+'

CRISIL Ratings has **withdrawn** its rating on bonds worth Rs 2097.54 crore (See 'Annexure: Details of rating withdrawn' for details) as the outstanding against the same is nil and on receipt of confirmation from the debenture trustee. The withdrawal is in line with the policy of CRISIL Ratings.

Government of India (GoI) had announced, Revamped Distribution Sector Scheme (RDSS) reforms-based and results-linked scheme with an outlay of 3.04 lakh crore over a period of five years, which would be available till fiscal 2026. REC Ltd (REC) and PFC have been appointed as nodal lending agencies for facilitating the implementation of this scheme. The scheme aims to improve operational efficiencies and financial sustainability of distribution companies (discoms) by providing reform-linked financial assistance for strengthening the supply. In fiscal 2022, GoI announced late payment surcharge (LPS) scheme to address dues of discoms to generation and transmission companies. PFC has extended financial assistance to various discoms under the rules, to clear their outstanding dues. PFC shall also act as the nodal agency to monitor implementation of these rules.

The consolidated asset quality improved in the nine months ending December 2023,, led by recoveries in large delinquent private sector exposures. On a consolidated basis, gross non-performing assets (NPAs) and net NPAs were lower at 3.9% and 1.2%, respectively, as on December 31, 2022, versus 5.0% and 1.6% on March 31, 2022. On a standalone basis, gross NPAs and net NPAs stood at 4.2% and 1.2%, respectively, as on December 31, 2022 as against 5.6% and 1.8% on March 31, 2022, (5.7% and 2.1% on March 31, 2021). Most of the NPA accounts are under a resolution process/or at advanced stages of resolution. Further, with most of the stress in the private sector recognised, there may not be further large private sector slippages in the near to medium term.

The ratings continue to reflect the strategic importance of PFC to the Gol, given the key role the company plays in financing the Indian power sector, and majority ownership by the government. The ratings also factor in a strong market position and adequate capitalisation and resource profile. These strengths are partially offset by inherent vulnerability of the asset quality to the weak credit risk profiles of borrowers and significant sectoral and customer concentration in revenue.

Analytical Approach

CRISIL Ratings has combined the business and financial risk profiles of PFC and its subsidiaries including REC. Furthermore, CRISIL Ratings factors in support from the majority owner, Gol, given the company's key role in financing the Indian power sector.

Please refer Annexure - List of entities consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers & Detailed Description

Strengths:

- **Strategic importance to and majority ownership by Gol**

The company plays a major role in implementing government policies, and is important for financing India's power sector, particularly government sector power utilities (87% of the consolidated loan book as on September 30, 2022). PFC is the nodal agency for the development of ultra-mega power projects and the integrated power development scheme, RDSS and LPS and is also the bid process coordinator for the Independent Transmission Projects scheme. It plays a developmental role in channelling finance to meet the power sector's large funding requirement, particularly of public sector utilities (PSUs). PFC is also the nodal agency for channeling finance towards the rural electrification programme under the Deendayal Upadhyaya Gram Jyoti Yojana (formerly known as Rajiv Gandhi Grameen Viduytikaran Yojana) and Pradhan Mantri Sahaj Bijli Har Ghar Yojana, or Saubhagya scheme, and the National Electricity Fund Scheme. PFC and REC are the lending partners for the announced discom package. In fiscal 2022, Gol announced LPS to address dues of discoms to generation and transmission companies. PFC has extended financial assistance (Rs 11,053 crore as of Dec 31, 2022) to various discoms under the rules, to clear their outstanding dues. PFC shall also act as the nodal agency to monitor implementation of these rules.

Gol remains the majority shareholder, with a stake of 56% as on December 31, 2022. The government supports the company financially and operationally in various ways, including conferring special status to raise capital gains tax exemption bonds. Gol has strong strategic reasons and a moral obligation to support PFC, both on an ongoing basis and in the event of distress, given the latter's role in implementing the government's power sector policies and Gol's majority ownership in the company.

- **Dominant market position in the power financing segment**

PFC plays an important role in the Indian power sector, not only by providing finance but also by implementing Gol's power sector policies. The company, at a consolidated level, is the largest lender to the power sector and plays a key role in channeling finance to state power utilities (SPU). The gross consolidated loan book grew by 2% year-on-year to Rs 8.05 lakh crore as on December 31, 2022, from Rs 7.20 lakh crore a year earlier (Rs 7.6 lakh crore as on March 31, 2022). The share of PSUs in the consolidated loan book stood at 88% as on December 31, 2022. Loans outstanding to SPUs on a consolidated basis stood at Rs 6.7 lakh crore as on this date (Rs 6.3 lakh crore a year earlier).

- **Adequate capitalisation**

As on December 31, 2022, on a standalone basis, Tier-I CAR and overall CAR stood at 21.34% and 24.41%, (23.48% and 20.00%, respectively, as on March 31, 2022). Capitalisation is expected to remain adequate over the medium term, supported by a demonstrated ability to raise capital through public issues. Network to net NPA ratio on a standalone basis for PFC is 12.7 times as on September 30, 2022; 9.0 times as on March 31, 2022. Accretion to network is supported by the ability to maintain good interest spreads and a low operating expense ratio. The standalone return on assets ratio was 3.1% and return on equity were 20.3% for the first half of fiscal 2023 (3.1% and 22.5%, respectively, for fiscal 2022). Ability to contain credit costs and hence improve profitability and capitalisation will remain a key monitorable.

- **Sufficient resource profile**

Borrowing costs are competitive and the resource base, though wholesale, is diversified. Debt instruments have wide market acceptability, which is also reflective in its low cost of borrowing compared to peers (7.5% for the nine months ended December 31, 2022). The consolidated resource profile as on December 31, 2022, comprises bonds (57%), term loans (20%), and other borrowings (1%). The company also has access to foreign currency borrowing, which comprised 18% of the total consolidated borrowing as on the same date (20% as on March 31, 2022). As per the board-approved policy for exchange rate risks, PFC has hedged 77% of its foreign currency borrowing with residual maturity of up to five years as on December 31, 2022. The company has also received government approval to raise capital gain bonds under Section 54 EC; which should further support the resource profile. The company participated in the sixth tranche of issue of Bharat Bond

exchange-traded fund (ETF) and raised Rs 1,180 crore for around 10 years maturity on April 14, 2032. With this ETF, the company has been able to establish an additional funding stream in the domestic market.

In fiscal 2017, extra budgetary resources of Rs 5,000 crore were raised on behalf of the GoI. These bonds will be fully serviced by the government through the general budget; hence, a separate government guarantee was not required for issue of these bonds. In its analytical treatment, CRISIL Ratings has assumed that PFC will ensure the bonds are serviced on time.

Weakness:

- **Inherent vulnerability in asset quality, and significant sectoral and customer concentration**

PFC's asset quality remains inherently vulnerable to the weak credit risk profiles of borrowers. The company caters only to the power sector, with 88% of its consolidated loan book as on December 31, 2022, to government sector power utilities (including generation, transmission, and discoms). PSUs, especially discoms, are an inherently weak asset class because of their poor financial risk profiles. Effective execution of various reform measures is extremely critical for PSUs to produce the desired positive impact, and broad-based political consensus is necessary to implement the much-needed tariff increases to ensure sustained improvement in their performance. NPAs and restructured assets from the PSU book had risen sharply in fiscal 2017 owing to alignment with the restructuring norms of Reserve Bank of India. However, the downgraded accounts had been paying dues regularly, and a majority of them were upgraded in fiscal 2018. As on December 31, 2022, Furthermore, various dispensation schemes by the GOI such as RDSS and LPS have also helped support asset quality for these exposures. Accordingly, NPAs (stage III assets as per IND AS) remained nil from this portfolio (nil as on March 31, 2022)

PFC (consolidated) also has 12% exposure to private sector power players, which have increasingly become more vulnerable to asset quality risks owing to issues such as lack of fuel availability, inability to pass on fuel price increases, and absence of long-term power purchase agreements for assured power offtake. PFC, on a consolidated basis, had gross NPAs (stage III assets as per IND-AS) of 3.9% as on December 31, 2022 (5.0% as on March 31, 2022), all from its private sector book. As on December 31, 2022, 31% of private sector loans have been recognised as stage III assets on which the company has a provision coverage of 71% on a consolidated basis.

Liquidity: Superior

Asset liability maturity (ALM) profile of PFC shows that liquidity position is superior. As of December 31, 2022, the structural liquidity of PFC had positive mismatches up to one year. The mismatches, if any, are managed mainly through unutilised bank lines. Additionally, debt repayments are well staggered across months, supporting liquidity.

As on February 28, 2023, the company (on a standalone basis) had liquidity cushion of Rs 10,344 crore (Rs 1,196 crore of cash and equivalents and liquid investments and Rs 9,148 crore of unutilised cash credit lines), along with monthly inflows, against debt obligation of Rs 21,294 crore over the three months till May 2023. Further, PFC has raised long term debt of around Rs. 27,720 crore in the first nine months of fiscal 2023 through bonds, term loans from banks and capital market instruments.

ESG Profile

CRISIL Ratings believes that PFC Environment, Social, and Governance (ESG) profile supports its already strong credit risk profile.

The ESG profile for financial sector entities typically factors in governance as a key differentiator. The sector has reasonable social impact because of its substantial employee and customer base, and it can play a key role in promoting financial inclusion. While the sector does not have a direct adverse environmental impact, the lending decisions may have a bearing on environment.

PFC has a continuous focus on strengthening various aspects of its ESG profile.

PFC Finance's key ESG Highlights:

- ESG disclosures of the company are evolving and it is in the process of further strengthening the disclosures going forward.
- PFC continues to have sizeable exposure (45% of loan book towards generation companies as on December 31, 2022) as on towards fossil fuel projects, which in turn impacts the environment. However, the company has consciously aimed to increase lending to renewable projects (10% of loan book as of Dec 31, 2022). PFC has issued its first USD Green bond in December, 2017 and raised US \$400 million (Rs 2,575 crore) under the Green Bond Framework for funding renewable project. Further, in September, 2021 PFC issued its first ever Euro Green Bonds amounting to EUR 300 million (Rs 2,597 crore)
- 40% of the board members are independent directors and the PFC has a dedicated investor grievance redressal mechanism.

There is growing importance of ESG among investors and lenders. PFC commitment to ESG principles will play a key role in enhancing stakeholder confidence, given the sizable share of market borrowings in its overall debt and access to both domestic and foreign capital markets.

Outlook: Stable

CRISIL Ratings believes GoI will retain its majority stake in PFC, which will continue to play a critical role in implementing government policies related to financing the Indian power sector over the medium term. The company is also likely to retain its strong position in the infrastructure-financing segment, while maintaining healthy capitalisation.

The rating on the perpetual bonds remains sensitive to the capital buffer maintained by PFC over regulatory capital requirements; rating transition on these instruments could potentially be sharper than that on other debt instruments and bank facilities.

Rating Sensitivity factors

Downward factors

- Government shareholding declining below 50% and/or diminution of government support
- Significant deterioration in asset quality, thereby impacting profitability and capitalisation

About the Company

PFC was established in 1986 by Gol as an institution dedicated to funding and developing the power sector in India. Until 1996, it lent exclusively to public sector entities. Since then, it has expanded its customer profile to include private sector power utilities and projects. PFC aims to promote balanced and integrated development of the power sector by providing finance to low-cost, efficient, and reliable projects.

In March 2019, PFC completed the acquisition of Gol's 52.6% stake in REC for Rs 14,500 crore. PFC and REC will remain strategically important to the government, which would provide them timely, need-based support. They will continue to play their respective policy roles and will remain the nodal agencies for implementing power sector policies. Further, they are expected to operate all functions independently as they do currently.

On a consolidated basis, PFC reported profit after tax (PAT) of Rs 18,768 crore and total income (net of interest) of Rs 31,636 crore in fiscal 2022 (Rs 15,716 crore and 27,016 crore, respectively in the previous fiscal). On a standalone basis, PFC reported PAT of Rs 10,002 crore and total income (net of interest) of Rs 15,920 crore in fiscal 2022 as against Rs 8,444 crore and Rs 14,573 crore, respectively in the previous fiscal.

For the nine months ended December 31, 2022, on a consolidated basis, PFC reported PAT of Rs 15,049 crore and total income (net of interest) of Rs 23,171 crore (Rs 14,472 crore and Rs 23,686 crore, respectively, in the corresponding period of the previous fiscal). On a standalone basis, PFC reported PAT of Rs 8,113 crore and total income (net of interest) of Rs 12,337 crore for the nine months ended December 31, 2022 (Rs 7,412 crore and Rs 11,618 crore, respectively, in the corresponding period of the previous fiscal).

Rationale

While arriving at the ratings, ICRA takes a consolidated view of the credit profiles of Power Finance Corporation Ltd. (PFC) and REC Limited (REC), as REC is a subsidiary of PFC and both entities are in a similar line of business with strategic importance to the Government of India (GoI) and overlapping clientele.

The ratings continue to draw significant strength from PFC's sovereign ownership¹, its importance to the GoI, given its role as a nodal agency for various power sector schemes, and its dominant market position (including REC) in the power sector financing segment. The ratings also continue to draw comfort from the diversified borrowing mix, healthy financial flexibility by virtue of ownership, adequate liquidity and established track record of healthy profitability. The aforesaid strengths are partly offset by the moderate, albeit improving, capitalisation with a consolidated gearing of about 6.6x as on September 30, 2022. The group also remains exposed to risks arising from exposure to a single sector (i.e. power) with a high concentration towards relatively weak state power utilities as well as the vulnerability of its exposure to private sector borrowers. This is reflected by the elevated asset quality indicators with the gross stage 3 assets at 4.8% and 4.4% of total advances at standalone and consolidated level, respectively, as of September 30, 2022, despite having improved significantly over last two years. PFC is also exposed to risks arising from fluctuations in foreign exchange rates, given the sizeable foreign currency denominated borrowings, nonetheless, PFC has been actively focused on hedging its foreign currency borrowings, the risk is mitigated to some degree with 95% of foreign exchange borrowings with residual maturity of up to 5 years fully hedged as on September 30, 2022 compared to 65% till March 31, 2020.

ICRA believes that prudent capitalisation is a key mitigant against the risks arising out of the sectoral and credit concentration. In this context, cognizance has been taken of the various government schemes with PFC and REC as lending partners. The impact on the capitalisation ratios has been cushioned by the lower risk weight applicable to the exposures backed by state government guarantees. Based on discussions with the managements and stakeholders of both entities, including the principal

¹ 56% held by the GoI as on December 31, 2022

shareholder, ICRA understands that PFC and REC remain important vehicles for the implementation of the Gol's various power sector schemes. Moreover, support will be forthcoming from the Gol if needed. Support to REC, if required, will be extended by the Gol through PFC. Thus, the Stable outlook reflects ICRA's expectation that PFC, along with REC, will remain strategically important to the Gol and will continue to play a major role in various power sector schemes of the Government. Consequently, PFC and REC are likely to retain a dominant position in power sector financing while maintaining an adequate profitability, borrowing and capitalisation profile.

Notwithstanding the ratings of [ICRA]AAA(Stable) and [ICRA]A1+ outstanding on the other borrowing programmes of the company, the one notch lower rating for the perpetual debt programme reflects the specific features of these instruments as per the guidelines issued by the Reserve Bank of India (RBI) for hybrid debt capital instruments.

Key rating drivers and their description

Credit strengths

Majority ownership by Gol and importance, given the role played in implementing various Gol schemes and dominant position in power sector financing – As nodal agencies for implementing various Gol schemes aimed at developing the country's power sector (such as Revamped Distribution Sector Scheme (RDSS) & Integrated Power Development System (IPDS Scheme), PFC and REC remain strategically important to the Gol for achieving its objective of augmenting the power capacity across the country. Further, the Gol remains a majority shareholder in PFC with a stake of ~56%, as of December 31, 2022, and has representation on the company's board.

PFC has an experienced management team with the senior team having an experience of more than 30 years in power financing. Moreover, the company, along with REC, has maintained a dominant position in power sector financing with a large share of funding to state power utilities. ICRA notes that PFC's acquisition of REC further strengthened its position, while supporting better portfolio diversity, compared to individual entities. At the same time, with PFC and REC being a part of the same group, sustained challenges in incremental fund-raising owing to the group exposure limits of lenders will remain a monitorable.

Good financial flexibility and resource profile – The group enjoys good financial flexibility, given its sovereign ownership, which augurs well for raising long-term funding from both domestic and international financial institutions at competitive rates. Given the Gol's support, PFC has been able to raise funds at competitive rates. Precedents, wherein it received approval from the Gol to raise tax-free and 54EC low-cost capital gain bonds, provide comfort with respect to its financial flexibility, ability to raise low-cost funds, and maintain a diversified borrowing profile. The funding mix remains adequately diversified and includes long term market instruments, foreign currency borrowings, Banks and FIs. Over the past few years PFC has significantly increased the share of hedged foreign currency borrowing with residual maturity of up to 5 years (95% as on September 30, 2022 as compared to 66% as on March 31, 2020).

Established track record of healthy profitability – More than commensurate decline in cost of funds as compared to the decline in yields and decline in gearing resulted in improvement in net interest margins (NIMs) to 3.5% in FY2022 as compared to 3.4% in FY2021. Notwithstanding the elevated levels (though declining) share of gross stage 3 assets resulting in credit costs 0.7% in FY2022 as compared to 0.8% in FY2021 on a consolidated basis. Given the wholesale nature of business, the operating expenses remained low at 0.1% in FY2022 (0.1% in FY2021). PFC's profitability remains healthy with a return on equity (RoE) of 18% and 21% at the standalone and consolidated level, respectively, in FY2022. At the standalone level, PFC's three-year average RoA and RoE for FY2019-FY2022 stood at 2.0% and 16%, respectively. Further, profitability remained healthy in H1FY2023 with RoA and RoE of 2.5% and 17% respectively for PFC on standalone basis.

Credit challenges

High concentration risk and portfolio vulnerability – PFC's exposure to a single sector (i.e. power), large ticket size of loans, high concentration of exposure towards financially weak state power utilities and the vulnerability of its exposure to private sector borrowers increase the portfolio vulnerability. The independent power producer (IPP) portfolio remains impacted by

concerns regarding fuel availability, disputed and competitive power sale tariffs, absence of power purchase agreements (PPAs), environmental clearance and land acquisition issues.

The gross stage 3 assets as on September 30, 2022 stood elevated at 4.8% and 4.4% of total advances at standalone and consolidated level, respectively; though, having improved from peak of over 8%. With provision cover of 71%, the net stage 3 assets as of September 30, 2022 stood at 1.3% of total advances at standalone and consolidated level. As on September 30, 2022, about 41% of the consolidated private sector book is recognised as a part of the Stage III assets on which the company has made sizeable provisions of 71%. ICRA, however, believes that any incremental stress in the loan book is likely to be restricted to the private sector book, wherein most of the stressed loans are already in stage 3. Going forward, the Group's ability to grow its loan book, while controlling the credit costs and maintaining the profitability, would be imperative.

Moderate capitalisation – In the past, the acquisition of REC by PFC impacted the Group's consolidated capitalisation. While a considerable recovery has been witnessed since then, nonetheless leverage remains moderate with a consolidated gearing of about 6.6x as on September 30, 2022. Comparatively, PFC's capitalisation at the standalone level was characterised by a CRAR of 24.3% as of September 30, 2022. ICRA believes that prudent capitalisation is a key mitigant against the risks arising out of the sectoral and credit concentration. In this context, cognizance has been taken of the various government schemes with PFC and REC as lending partners. The impact on the capitalisation ratios will be cushioned by the lower risk weight applicable to the exposures backed by state government guarantees.

Liquidity position: Adequate

As of December 31, 2022, PFC's asset liability maturity (ALM) profile reflected debt maturities (principal only; at standalone level) of about Rs. 49,081 crore for the 12-month period ending December 31, 2022, against which its scheduled inflows from advances were Rs. 77,949 crore. Asset liability maturity (ALM) profile improved has in recent years due to the decline in dependence upon short term borrowings and relatively longer tenor borrowings raised in last one year resulting in positive cumulative mismatches in all buckets up to 1 year. PFC's ALM profile had historically been characterised by some cumulative negative mismatches in the up to one-year buckets, given the relatively long tenure of the loans extended by it. While such gaps, when existing, are partially bridged through sizeable unutilised bank lines (about Rs. 7,346 crore as of December 31, 2022) and cash & equivalents (about Rs. 5,791 crore as of December 31, 2022), the company also relies on interest income and refinancing, at times, to repay its maturing debt. Nevertheless, the healthy financial flexibility, supported by the sovereign ownership and ability to raise funds at short notice, provides comfort.

Rating sensitivities

Positive factors – Not applicable

Negative factors – ICRA could change the rating outlook to Negative or downgrade the ratings on a change in the ownership and/or a change in PFC's strategic role or importance to the GoI. Also, a deterioration in the consolidated solvency (net Stage 3/NOF) to a level above 40% on a sustained basis will be a negative trigger.
